## Select AWS access type

Select how these users will access AWS. Access keys and autogenerated passwords are provided in the last step. [Learn more](#)

- Access type\*

☒

**Programmatic access**  
Enables an **access key ID** and **secret access key** for the AWS API, CLI, SDK, and other development tools.

☒

**AWS Management Console access**  
Enables a **password** that allows users to sign-in to the AWS Management Console.

## Add user

### Review

Review your choices. After you create the user, you can view and download the autogenerated password and access key.

#### User details

User name	SAIRAMESH
AWS access type	Programmatic access and AWS Management Console access
Console password type	Custom
Require password reset	Yes
Permissions boundary	Permissions boundary is not set

#### Permissions summary

The following policies will be attached to the user shown above.

Type	Name
Managed policy	<a href="#">AmazonS3FullAccess</a>
Managed policy	<a href="#">IAMUserChangePassword</a>

## Success

You successfully created the users shown below. You can view and download user security credentials. You can also email users instructions for signing in to the AWS Management Console. This is the last time these credentials will be available to download. However, you can create new credentials at any time.

Users with AWS Management Console access can sign-in at: <https://208892961162.signin.aws.amazon.com/console>
